

CACHE-A

ARCHIVE APPLIANCES

*our quietest,
most energy efficient model*
Ideal for Desktop Use

Archiving Made Easy

Built-in searchable database of all of your tapes

Prime-Cache remembers every single Cache-A tape it has ever seen

Prime-Cache shares its catalog with any or all other Cache-A systems on the network

Associate user metadata with any file, folder or tape

Automated archiving capability built-in

Schedule events to archive any network shared volumes at any time

One-time, daily, weekly or monthly events to cover your archiving needs

Span archives across multiple cartridges

Treat a group of tapes as a single entity with a single directory of all content

Standard LTO-4 tape "tar" compatibility

No special hardware or software needed to read Cache-A tapes on any LTO-4 drive

Prime-Cache™ LTO-4 800GB Archive Appliance

Direct archive access from any platform

Simultaneous multi-user access
Volume sharing and FTP built-in
Windows / MacOS / Unix
Web page control over all operations
FTP, Samba, NFS, AFP, Bonjour
USB storage device direct connection

Directory on each tape

Media is portable, shelf-storable, interchangeable
Directly accessible with no special software
Self contained, self-describing LTO media

Easy to deploy and use

Plug and play integration into Gb Ethernet networks
Integrates seamlessly into file based workflows
A single tape drive can serve everyone on the network
Allows users to treat LTO tape like a NAS

A true self-contained appliance

Complete solution in a single chassis
No software is necessary on any client on any OS
Built-in "support connect" lets us provide remote service
